

Dear Students,

I would like to introduce the format and general rules of the MU Life Science Seminar Series course.

The Life Sciences Seminar

(<https://seminarseries.muni.cz/life-sciences/about-the-series>) is a series that focuses on the currently growing fields of Life Sciences, which combine modern methods of biophysics, computational modeling, imaging, biochemistry, molecular biology with “more classical” disciplines such as microbiology, physiology, genetics, developmental and evolutionary biology, and medicine.

The Life Sciences Seminar Series includes also the Mendel Lectures - <http://mendellectures.muni.cz/>.

THE MOST IMPORTANT INFORMATION:

1) LIFE SCIENCES LECTURES (THURSDAYS, 16:00 AT UKB, PAVILION B11, ROOM 132)

One hour talk takes place on Thursday afternoons at 16:00 in the lecture hall 132/B11.

We usually organize a lunch for students with speakers. If you wish to join and talk to any of the speakers, please register in advance using the link in the invitation, which I will distribute each Monday before the lecture.

2) MENDEL LECTURES (THURSDAYS, 17:00 AT MENDEL REFECTORY)

One hour talk takes place on Thursday afternoons at 17:00 at Mendel Refectory at Mendel Square.

The Mendel lectures are not an obligatory part of your course and they are not broadcasted to the University Campus. However, you can substitute here an attendance for the Life Sciences Seminar.

Lunch for students is usually organized also for Mendel Lectures, if you would like to join, please contact pavlikova@med.muni.cz.

3) PROGRAM

You can download the program of the upcoming semester here:

https://cdn.muni.cz/media/3343001/mulss-autumn-2021_finfin.pdf

Or see it on the website where you can read also the abstracts of the talks:

<https://seminarseries.muni.cz/life-sciences/about-the-series>

(abstract will be added ca 2 weeks before the lecture)

4) CREDITS, REQUIRED ATTENDANCE - Note that attendance requirements changed at the Faculty of Science!

Please check the rules for getting the credits at:

<https://seminarseries.muni.cz/life-sciences/about-the-series/registration>, in the Course catalog in the IS MU or with a guarantee of your study.

Please, sign the attendance lists legibly (!) to avoid any misunderstanding with getting credits.

Attendance lists will be distributed at the end of the talk in order not to disturb the speaker and the audience.

If you have any questions or comments, please contact me via e-mail.

Thank you very much for your cooperation!

With best regards,

Lucie Nesvadbová
