

Hello!

The Lifbee Academy's 5th year registrations are open! 🧠 We highly recommend it as a chance to **enhance your skills** and tap into **new opportunities**.

At Lifbee, join a vibrant community, expand your network, and engage with leading professionals in the innovative scientific realm, advancing your career! 🚀

### 🔍 **What to expect:**

Lifbee Academy is a unique Central European **educational program** and **innovation incubator** for scientists and "non-scientists" with **high added value**. In 8 months, you will gain experience and practice in the field of creating innovations. 🥳

### 🧠 **The program comprises:**

👉 Intensive lectures and workshops by experts, directors, and inspirational figures, bridging theory with practice. Lasts 4 months (June - September).

👉 Incubator phase from October to January, where teams tackle challenges in either the EnviroTech Lab or the Life Sciences Lab. EnviroTech Lab focuses on environment, green energy, circular economy, biofabrication, etc. Life Sciences Lab covers health, pharmaceuticals, diagnostics, etc.

At the end of the program, you can participate in the Lifbee Academy Finale, during which you present your project with your team to top industry experts and stand a **chance to win €5000** to kickstart your idea! 😎

### 📅 **Program logistics:**

You can manage Lifbee Academy alongside work, school, or while writing your dissertation.

👉 The program runs **2-3 times a week in the evenings starting at 18:00**. You can easily join from anywhere because it operates **online** during the week.

👉 Once a month, there are **in-person meetings at full-day Saturday** workshops and gatherings in Bratislava. If you can't travel at that time, you can join online.

### **Turn creativity and determination into innovation - Find happiness in science!**

📌 So don't hesitate, seize the opportunity, and **fill out the application today** at <https://www.lifbee.com/en/lifbee-academy> **by May 15, 2024!**

Hurry, as spots in the program **are limited!**
